The Advantages of a Complete Wedding Package

Give yourself the gift of a stress-free wedding day. Let the staff look after you from the planning to the send-off so that you and your guests can sit back and relax. There is no need to coordinate vendors - everything you need for your perfect wedding is done on site to your exact specifications. All the special details from the centerpiece flowers and décor to the custom ice carving are looked after for you. You and your fiancé will sit down and design your personalized wedding with the owner to make sure that everything suits your style.

The staff will guide you every step of the way. Bring in your inspiration pictures and let them do the rest. The chef will cook you a full four-course sample meal so that you know exactly what you and your guests will enjoy for your wedding dinner. Let them tailor it to your tastes and make it your own. You will sample and choose every course, including your custom wedding cake. Your guests will select one of your two entrée options on the day, so you don't have to worry about gathering the meal order months in advance. They can choose what they are in the mood for. The kitchen can accommodate special dietary options, including vegetarian, vegan, celiac, and food allergies. They also offer kid-friendly meals.

By choosing a complete wedding package you are making it easy on yourself to stick to a budget. You are making the wedding of your dreams affordable. You know exactly what your wedding will cost upfront and make sure there will be no surprise expenses. You will know exactly what you are booking, right down to how many staff will be there to wait on you and your guests.

On your wedding day, the ceremony space and reception room will be ready upon your arrival – no work for your friends or family. Your personalized printed menus sit on white double linen tablecloths and linen napkins with the candleholders and vases of your choice. Start your special day in a private change room for you and your bridesmaids. Bring your makeup artist and hair stylist and get ready in peace and quiet. The beautiful bouquets and boutonnieres are ready, your music is being played, and you are ready to walk down the aisle in a beautiful heritage garden. Your guests will be served chilled refreshments after your ceremony. The staff will show them to their seats at the reception, so that you don't need to spend your time on nametags and seating charts. Enjoy your four-course meal while wine stewards keep your glasses full. You and your fiancé can dance the night away while the staff play your favourite music for you. All the clean up will be done for you. A private security guard will be on duty all night. At the end of the night he and the staff will call taxis for your guests to make sure everyone gets home safely.

Every detail of your big day will be seamlessly and expertly coordinated. Let the professionals take care of everything so that you can truly enjoy your wedding.
